

Fire On Fire - Sam Smith - Tom G

Em G

My mother said I'm too romantic

D C

She said: You're dancing in the movies

Em G

I almost started to believe her

D C

Then I saw you and I knew

Em G

Maybe it's 'cause I got a little bit older

D C

Maybe it's all that I've been through

Em G

I'd like to think it's how you lean on my shoulder

D C

And how I see myself with you

Am C

I don't say a word

Em D Am

But still, you take my breath and steal the things I know

C Em D

There you go, saving me from out of the cold

Em G

Fire on fire, would normally kill us

D C

With this much desire, together, we're winners

Em

They say that we're out of control and some say we're

G

Sinners

D C

But don't let them ruin our beautiful rhythms

Am C

'Cause when you unfold me and tell me you love me

Em D

And look in my eyes

Am C

You are perfection, my only direction

Em G

It's fire on fire

D C

It's fire on fire

Em G

When we fight, we fight like lions

D C

But then we love and feel the truth

Em G

We lose our minds in a city of roses

D C

We won't abide by any rules

Am G C

I don't say a word
