

Fire On Fire - Sam Smith

C#m E

My mother said I'm too romantic

B A

She said: You're dancing in the movies

C#m E

I almost started to believe her

B A

Then I saw you and I knew

C#m E

Maybe it's 'cause I got a little bit older

B A

Maybe it's all that I've been through

C#m E

I'd like to think it's how you lean on my shoulder

B A

And how I see myself with you

F#m A

I don't say a word

C#m B F#m

But still, you take my breath and steal the things I know

A C#m B

There you go, saving me from out of the cold

C#m E

Fire on fire, would normally kill us

B A

With this much desire, together, we're winners

C#m

They say that we're out of control and some say we're

E

Sinners

B A

But don't let them ruin our beautiful rhythms

F#m A

'Cause when you unfold me and tell me you love me

C#m B

And look in my eyes

F#m A

You are perfection, my only direction

C#m E

It's fire on fire

B A

It's fire on fire

C#m E

When we fight, we fight like lions

B A

But then we love and feel the truth

C#m E

We lose our minds in a city of roses

B A

We won't abide by any rules

F#m E A

I don't say a word

B C#m B F#m

But still, you take my breath and steal the things I know
